WRECKERS DISMANTLING (CAPE) (PTY) LTD

We hereby confirm that Wreckers Dismantling (Cape) has been appointed by Petroleum & Retail Properties (Pty) Ltd to perform demolition work at the proposed new service station on the N1 Highway between Johannesburg and Pretoria at the New Road off-ramp. This appointment commenced in March 2018 and was completed by early May 2018.

Demolition activities included the removal of various steel and concrete structures, redundant piping & buildings, and associated structures. All demolition work was done with minimum interruptions.

The interaction with Wreckers was pleasant and their team required minimal management, as this team was highly experienced and we would highly recommend making use of their services for demolition work.

Yours faithfully

ROBERT MORE
